Chapter III — Overview of Para Social Work Training

The following sections provide day by day descriptions of the training workshop activities. Each description includes the following:

- Session Purpose and Objectives
- Additional Equipment if Needed
- Learning Activities
- Trainer Tips (not included for all days)
- Topic Outline (includes slide numbers)

Each day and section has specific knowledge-related content that is best conveyed through lecture and discussion. Each major learning point should be based in an audience-specific feedback loop (i.e. lecture and discussion; brainstorming; large group activities, etc.).

Each section has culturally-specific content that relates to participant experiences. These topics require more in-depth discussion with the audience, so that the concepts can be related to their own community, educational, and cultural experiences.

Equipment Needed

Most sessions require the following equipment; when other items are needed they are designated:

- Flipchart
- Marker Pens
- LCD Projector
- Computer
- Screen
