

# CIVIL SOCIETY GLOBAL INITIATIVE SUCCESSES

1

## CONDUCTED AN ASSESSMENT OF THE STATE OF CIVIL SOCIETY AND ITS RELATIONSHIPS WITH PEPFAR COUNTRY TEAMS PRIOR TO ADDITIONAL ACTIVITIES IN EACH COUNTRY

Both PEPFAR and CSO respondents agreed on the need for capacity building for CSOs to help them become better partners with PEPFAR in the fight against HIV/AIDS.

2

## CONDUCTED DATA PRESENTATION WORKSHOPS IN ETHIOPIA, NIGERIA, AND UGANDA.

The purpose of these workshops was to help PEPFAR better communicate their highly sophisticated data to an audience who may not be as comfortable with technical terms. There was near unanimous agreement that these workshops were helpful to all.

3

## CONDUCTED CSO ORIENTATION DEVELOPMENT WORKSHOPS

Once again, PEPFAR team members and CSO leadership reported that the Development Workshops helped them in designing the Orientation Meetings, and Meeting participants reported that they felt more prepared to meaningfully engage with PEPFAR.

4

## USED DATA GATHERING FOR ACTIVITY IMPROVEMENT

This adaptive approach allowed the project team to be as responsive as possible to individual country needs and to change their approach when necessary, contributing to project success.
