- Tanzania
- Uganda
- Zambia

Using a multi-pillar approach based on WHO's six core health system building blocks, AIHA works with countries to develop locally sustainable solutions for:

- Integrating newly trained health and social service professionals into existing health systems
- Developing legislative, policy, and regulatory framework to support critical health workforce cadres

AIHA's HIV/AIDS Twinning Center is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant number U97HA04128.
